Extra Session of the U. S. Senate.

President Arthur has, by proclamation, convened the Senate in special session for the 10th of October. The opinion seems to be that the Democrats will then organize that body before admitting the two Republican Senators from New York and the one to be appointed from Phode Island to succeed the late Senator Burnside. [For the Watchman and Southron.] OUR SCHOOL.

The Sumter Graded School will open Monday the 3d instant, with a full corps of competent teachers, and it is carnestly hoped that our people will give it the patronage it deserves. There is no reason why this school should not be made first class in every respect. The Trustees have done all in their power and now the people must do their part, if they wish to receive the benefits to be derived from a good school. This is no charitable organization, but one in which "value received" will be returned for all the outlay of time, trouble or money, nor is it an organization Mr. Lowndes' loss of rice on Santee will be whose success or failure is a matter of small firm basis means a failure for years to c me, and the hoys and girls of Sumter will be deprived of the advantages which either, now or soon will be enjoyed by the children in all our larger towns. It is useless for us to shut our eyes to the fact that the common school system, whether a success or fullure, has sounded the death knell to private schools in South Carolina. That system will remain the Though Mr. Arthur is the son of a Baptist law of the land despite the opposition it meets with from many of our best citizens. There may be some changes made in the working of the law, and I trust there may be, for at present it is very imperfect, but, the money appropriation will not be reduced. Is it not wise in us who are parents and tax payers to our children a common school education with no outlay of money while the public funds last, and with a much lower rate of tuition, when that is exhausted (if the same organization is kept up) than we could expect in private schools. There is no reason why a teacher should not be as efficient in a public, as in a private school. In this instance, every teacher will be on his metal to show what can be done in our Graded School. There is a great want of furniture in the school, and while the The good brethren from this country at- Trustees expect to make an effort as soon as possible to raise money by means of a fair or
